Health & Safety Environmental Policy

The Caltec Group is committed to meeting industry best practice in environmental performance wherever reasonable to do so. The company recognises that its activities may have some impact on the environment but will endeavour to minimise any impact where possible. The company believes good environmental performance helps ensure good business performance.

In Pursuit of our goals we will implement the following principals:

We will endeavour, as a minimum requirement, to always conduct our activities within the law and requirements of statutory regulations;

We will develop and promote policies and procedures that minimise, where practical, the detrimental impacts that our activities have upon the environment;

We will encourage the development of suitable methods, which promote environmental protection and /or minimise their environmental effects:

We will encourage our contractors and suppliers to pursue best practice and to apply environmental considerations in all aspects of their work friendly solutions;

We aim to provide education and training for our employees, to help the include environmental considerations in all aspects of their work friendly solutions;

We will attempt to make efficient use of natural recourse and minimise, where possible, our use of utilities and production waste;

We will dispose of our waste in accordance with the environmental demands of the communities in which we operate and society in general.

Environmental issues, environmental legislation and environmental priorities will change with the time. Caltec Environmental Services Will monitor environmental developments regularly review and where necessary amend, or make additions to this policy .
